OIL FIELD.

Our oil companies are pushing their prospecting in this territory to the limit. They have leases covering a large territory and many drills at work and more are being quipped and set to work just as fast as they can be secured.

The nice weather we have had for the past week has been favorable for work and things are moving along in a satisfactory manner. There are many perplexing questions that come up in getting such large enterprises on foot that take time to iron out. The Southwestern Co. and the city council have been trying for some weeks to arrange their conflicting ideas with reference to some gas land that was to be turned over by them to the city in lieu of oil land surrendered by the city.

All matters of difference have been amicably arranged and the Southwestern has a big new drill on hand ready to go to work in the bottoms east of town. The Isett Co. has two more new drills ordered that will be set to work as soon as received.

The other companies are making the best possible use of all drills on hand and have rush orders out for more.

The outlook now is that before spring there will be 20 or more big steam drills in this territory pounding away for oil. And, if the future development continues as favorable as the present indications warrant, Chanute will be in the center of one of the largest and best oil fields in the United States.

Our envious neighbors may then turn-up their noses and grin all they like, Chanute will be The It.

More litigation at Emporia over the failure of the First National Bank. The government has employed counsel and will attempt to set aside the sale of the Martindale property to Calvin Hood. Mr. Hood paid \$60,000 for the property and Mr. Martindale claims that it was worth a hundred thousand more, which he and his creditors should have had.

The January 1st issue of the Topeka Capital was a regular boom edition of Kansas, and should be scattered broadcast over the land. All it lacked to make it complete was a big write-up of the oil and gas interests at Chanute.

The political fight in Ohio is waxing warm between Hanna and Foraker. The latest reports are that the Foraker men are in the ascendancy and will organize the legislature.

In the election at Leavenworth on Dec. 31 to vote \$400,000 bonds for the purpose of buying the water works plant, the bonds carried by a majority of 134.

The Kansas teachers' association turned Mrs. Nation down and refused to hear her talk. Mrs. Nation does not seem to be IT any more.

A very strong company is being organized in Kansas City, with the National Bank of Commerce behind it, to market Beaumont oil.

Farmer Smith seems to now be having a small sized boom for governor.

Another big 80,000 barrel oil gusher has just been brought in at Beaumont.

The great Santa Fe railroad system did more business the past year than in any year of its history.

There were more business failures in the United States for the past year than for 1900, but not so much money involved.

What has become of the big damage suit Senator Platt was going to spring on William Allen White? Possibly he is only waiting till the holiday festivities are over.
